SUMMARY

- Undergraduate computer science engineering student with hands-on experience in AI-based projects and mobile application development. Seeking an internship opportunity to enhance technical and problem-solving skills in a professional environment.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai.

- CGPA: 9.01
- Graduation Timeline: Oct 2024 - May 2028

TECHNICAL SKILLS

- Programming Languages:** Python, Java, C++, Dart, HTML, CSS, JavaScript, SQL.
- Frameworks & Tools:** Flutter, Firebase, Node.js, Git, TensorFlow, and AI tools.
- Core Knowledge:** Data Structures & Algorithms, Cloud Basics, IoT, ML Models Building, Prompt Engineering, and Mobile Application Development.

TECHNICAL PROJECTS

1. Smart Water Monitoring System With Weather Data Integration

- Developed a IoT System that analyzes water quality using weather data integration, and provides real-time alerts and monitoring support in both online and offline modes.
- Developed a Flutter app integrated with cloud analytics for real-time water quality alerts.
- Built a TinyML AI model for offline water quality prediction and monitoring.

2. Smart Tourist Monitoring And Incidence Response System

- Developed an AI-based tourist safety and monitoring system with real-time tracking and emergency alert features.
- Developed a Flutter app providing real-time location tracking and a Tourist Assist feature for personalized place recommendations and safety-optimized routing.
- Built four AI models to provide intelligent companionship, optimize travel routes, detect behavioral anomalies, and predict real-time risk levels for enhanced tourist security.

ACHIEVEMENTS

- Published a paper titled "**AI Powered IoT Platform for Water Quality Monitoring and Weather Condition Analysis**" in 3rd international conference on Advances in Artificial Intelligence And Machine Learning in Big Data Processing.
- Secured **1st Place in the internal Smart India Hackathon (SIH)** for the development of a Smart Tourist Monitoring System.
- Awarded the **First Project Award** for the design and implementation of an IoT-based Smart Water Quality Monitoring System.
